

# RF KEYFOB & RF RECEIVER

## Long Range Wireless Access Control from Industry Leaders in Vandal Resistant Door Entry Systems

### EXPERIENCE

Entrotec has over 25 years of experience in the design and manufacture of vandal resistant door entry systems.

### WARRANTY

Entrotec systems are renowned for their reliability and have a 2 year warranty on all Entrotec manufactured products as standard.

### SUPPORT

Entrotec offer complimentary training courses and telephone support.

With a distance range of up to 100m this system is ideal for a wide variety of switching applications including:

- Electric Gates
- Automatic Doors
- Barriers

Compatible with Entrotec's Apex Door Entry System

Assisted Key Management through Easitag

Configurable Zoning

### RF KEYFOB

- 2 Button / 2 Channel Radio Transmitter Keyfob
- Red LED Low Battery Indicator
- Supplied in Black with Keyring
- Supplied with Black matching eTag Keyfob
- 868MHz Licence Exempt

### RF RECEIVER

- Rugged Surface Mount IP68 Remote Control Receiver
- Receives Programmed RF Keyfob Codes to Release Doors/Gates
- Built in Mounting Points and Easy Wiring
- Supplied in Black

- EasiTag offers a cost effective access control solution that is flexible and user friendly.
- EasiTag is easy to install and requires less cabling than other solutions.
- Key management is assisted with RF Keyfobs being administered easily with matching eTag.

- When the eTag is programmed into the EasiTag system the RF Keyfob is automatically programmed too.
- Keys are securely added or deleted at the call panel so there is no need to access the receiver unit. Keys can also be administered remotely over the Internet.
- Access can be restricted so keys can be programmed to only open certain doors / gates on a system.
