

## Integral Hearing Loop for Door Panels

### EXPERIENCE

Entrotec has over 25 years of experience in the design and manufacture of vandal resistant door entry systems.

### WARRANTY

Entrotec systems are renowned for their reliability and have a 2 year warranty on all Entrotec manufactured products as standard.

### SUPPORT

Entrotec offer complimentary training courses and telephone support.

The hearing loop, also known as an inductive coupler, is a device that operates in conjunction with hearing aids set in the 'T' position.

When fitted to a door panel the loop amplifies the residents' speech so it is heard much louder in the hearing aid.

- High quality speech
- Compatible with Apex and Elite systems
- Optionally available with Type 17 door panels
- Built-in loop allows for compact and neat installation
- Replaces the need for a standalone hearing loop

## Technical Specification

Installation Fully integrated within Type 17 panels

Power Direct from panel, 12VDC 1A peak

Operating Range Up to 2m – from panel

Identification Hearing loop logo laser etched on panel
