

KMS Shark Tooth HS Fob

The KMS Shark Tooth HS fob provides all the benefits of KMS residential access control, together with additional security via our new bespoke HS technology communications.

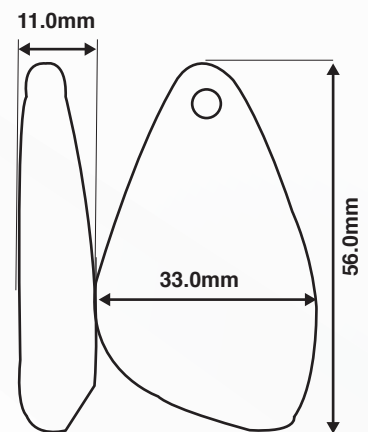

- **High security** developed using KMS unique Mifare based protocol, providing a significantly greater level of security.
- **Compatibility** with the KMS HS Reader taking advantage of the higher security. However it will work with all types of KMS reader & can also be used with other manufacturers access control systems allowing an "as required" staged introduction into existing systems.
- **Differentiation** available with 10 different colour inserts, enabling identification between fob issued to an address or user type.
- **Robust** British designed and built fob for the UK housing providers and comes with a life time guarantee.
